

40 Acre Show Grounds

with sawmill building, corn crib, windmill
& food stands!

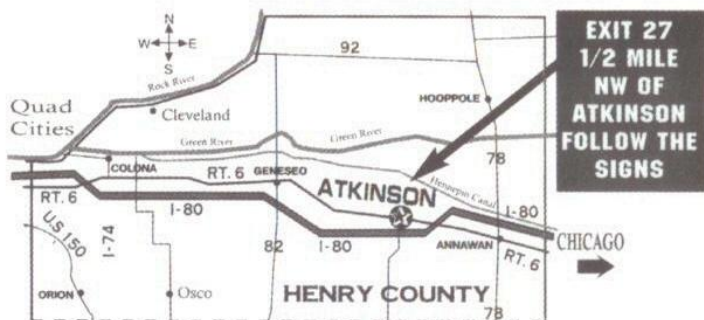

**Antique Corn Pickers • Combine Demonstrations
Plowing • Windmill • Wood Carving • Quilting
Corn Picking by Hand • Corn Shelling • Much More!**

The Antique Engine & Tractor Assoc., Inc. (AETA) stated purpose is "To promote the collection, restoration, preservation and exhibition of gasoline and oil engines, gasoline and steam tractors, power driven farm machinery and other equipment of historical value."

The annual three day **Working Farm Show** is where the AETA harvest corn and beans with mid 1900's equipment, thresh oats or wheat, run a saw mill, plow, and demonstrate gas engines as they were used from the early to mid 1900's. The annual show gets bigger each year with over 200 tractors, over 100 garden tractors and hundreds of gas engines, plus other agricultural memorabilia on the grounds. Each year the AETA features a different brand of antique engine and/or tractor and this year we will host the **Midwest Oliver Collectors**.

The AETA members hope you will come for a visit and enjoy a day or a weekend of great fun, good food and family entertainment this fall.
